Message from Editor

Dear Readers,

It is a great honor for us to publish Volume 8, No 2 of ***Global Journal of Information Technology: Emerging Technologies***.

Global Journal of Information Technology: Emerging Technologies focuses on contemporary research addressing Information technology including emerging technologies, strategy, change, infrastructure, human resources, sourcing, system development and implementation, communications, technology developments, technology futures, national policies and standards. The journal also publishes articles that advance our understanding and application of research approaches and methods covering information technology, its evolution and future prospects. It is intended to be a multi-disciplinary international journal aimed at revealing results of research on information technology.

Articles focusing on Barriers to adopting e-commerce with small to mid-sized enterprises-SMEs in developed countries: an exploratory study in Australia, Building artificial neural networks to predict direction and magnitude of wind, current and wave for sailing vessels, Analysing Bangladeshi Consumers' Satisfaction and Preferences of E-banking Services in Small to Mid-sized Enterprises (SMEs), The economic benefits of Cloud-based e-commerce in Indian service SMBs have been included in this issue. The topics of the next issue will be different. You can make sure that we will be trying to serve you with our journal with a rich knowledge in which different kinds of topics are discussed in each volume and issue.

A total number of twelve (19) manuscripts were submitted for this issue and each paper has been subjected to double-blind peer review process by the reviewers specialized in the related field. At the end of the review process, a total number of four (4) high quality research papers were selected and accepted for publication.

We present many thanks to all the contributors who helped us to publish this issue.

Best regards,

Prof. Dr. Dogan Ibrahim

Editor – in Chief
