Editorial

It is the great honor for me to edit proceedings of "**3rd Global Conference on Materials Sciences (GCMAS 2017)" 28-30 August 2017, Bahcesehir University Besiktas Campus, Istanbul, Turkey.** This privileged scientific event has been contributing to the field of educational research for three years.

As the guest editor of this issue, I am glad to see variety of articles focusing on share and discuss the ideas and both theoretical and practical knowledge about approaches, problems, new trends, applications, technology, proficiencies and standards in material sciences. The scope of the conference includes, but is not limited to; the following major topics as they relate to the Material Sciences; Materials Science, Biomaterials, Materials Science, CeramicsMaterials Science, Characterization & Testing, Materials Science, Coatings & Films, Materials Science, Composites, Materials Science, Multidisciplinary, Materials Science, Paper & Wood, Materials Science, Textiles…..

Furthermore, the conference is getting more international each year, which is an indicator that it is getting world widely known and recognized. Scholars from all over the world contribute to the conference. Special thanks are to all the reviewers, the members of the international editorial board, the publisher, and those involved in technical processes. We would like to thank all who contributed to every process to make this issue actualized. A total of 41 full papers or abstracts were submitted for this conference and each paper has been peer reviewed by the reviewers specialized in the related field. At the end of the review process, a total of 10 high quality research papers were selected and accepted for publication. I hope that you will enjoy reading the papers.

Best Regards
