1. Introduction

Number	Mean	Standard Deviation
--------	------	--------------------

[illegible]

		Secure Attachment	Avoidant Attachment	Ambivalent Attachment	Parent-Child	Anxiety Disorders

Table 4: The multivariate regression analysis for attachment styles in predicting anxiety disorders

Sum of Squares	Df	Mean Squares	f	Sig
----------------	----	--------------	---	-----

Table 5: The standardized and non-standardized regression coefficients for attachment styles in predicting obsessive-compulsive anxiety disorder

Non-Standardized Coefficients	Standardized Coefficients
-------------------------------	---------------------------

4. Conclusion
